

**CITY OF DECATUR, ILLINOIS
PUBLIC WORKS DEPARTMENT
STORMWATER UTILITY FEE CREDIT PROGRAM
ZERO DISCHARGE CREDIT
APPLICATION FORM**

City Reference No.

Date Received

/ /

Credit Application Instructions

To receive this credit the applicant must provide the following information:

- a) A completed General Credit Application Form
- b) A completed Zero Discharge Credit Application Form
- c) Topographic survey of the applicant's parcel(s), sufficient to verify general drainage patterns. Watershed breaks across the property shall be identified.
- d) Layout of the drainage system on the property, including the location and elevations of natural and structural features
- e) Application fee: \$25

Zero Discharge Credit Determination

(for City use only)

Has the Applicant provided all required documentation? Yes No

Does the site release no stormwater during a 25-year, 24 hour storm? Yes No

If any of the answers above is "No" the credit is denied and a letter of determination that identifies the deficiencies is to be sent to the Applicant.

If the answers to all questions are "Yes" the Zero Discharge Credit is computed as:

Credit % = 100 %

Credit Application Instructions

To receive this credit the applicant must provide the following information:

- a) A completed General Credit Application Form
- b) A completed Direct Discharge Credit Application Form
- c) Topographic survey of the applicant's parcel(s), sufficient to verify general drainage patterns and identify key drainage boundaries used to determine the portion of the parcel(s) draining to unincorporated areas. Watershed breaks across the property shall be identified.
- d) Layout of the drainage system on the property, including the location and elevations of natural and structural features
- e) Location of impervious surfaces on the property
- f) Application fee: \$25

Contributing Area Calculations

Impervious area on property that drains directly out of Decatur corporate limits (acres): _____

Total Impervious Area of Property (from General Credit Application Form, acres): _____

Fraction of total impervious area that drains directly out of Decatur (%): _____ **QA =** _____

Direct Discharge Credit Determination

(for City use only)

Has the Applicant provided all required documentation? Yes No

Does a portion of the site discharge outside the City of Decatur corporate limits? Yes No

If any of the answers above is "No" the credit is denied and a letter of determination that identifies the deficiencies is to be sent to the Applicant.

If the answers to all questions are "Yes" the Direct Discharge Credit is computed as:

Credit % = QA x 100% = _____ %

Credit Application Instructions

To receive this credit the applicant must provide the following information:

- a) A completed General Credit Application Form
- b) A completed Individual Residential Credit Application Form
- c) Appropriate documentation that the Stormwater Control Measure (SCM) has been installed according to standards and requirements detailed in Chapter 6 of the Stormwater Credit Manual
- d) Application fee: \$25.00
- e) Long-Term Maintenance Plan

Individual Residential Credit Determination

(for City use only)

Has the Applicant provided all required documentation? Yes No

Number of SCMs: _____

 Credit % = # of SCMs x 10% = **% (Max 20%)**

<hr/>

Credit Application Instructions

To receive this credit the applicant must provide the following:

- a) A completed General Credit Application Form
- b) A completed Runoff Quantity Credit Application Form
- c) Site Plan which includes, at a minimum, locations, dimensions and characteristics of all proposed and existing elevations, drainage patterns, stormwater facilities and impervious areas.
- d) Detailed engineering calculations showing compliance with the requirements of the credit applied for. An Illinois Professional Engineer must certify these calculations. The sum-total of pre-developed and post-developed runoff rates and volumes from all watersheds *within the property* must be calculated and compared, regardless of the number of natural or constructed watersheds in the property. Control of runoff in only one of the property's watersheds, ignoring all others, will not receive credit. Control of runoff in only one watershed, *which takes into account the runoff from all others*, could receive credit.
- e) As-built data certified by an Illinois Professional Engineer. The as-built data must verify the capacity of the detention facilities and outlet structures for which the credit has been applied.
- f) Details of outlet control features and emergency spillway
- g) Application fee: \$100.00
- h) Long-Term Maintenance Plan

Runoff Quantity Credit Determination

(for City use only)

Is the rainfall harvesting technique approved by City? Yes No

Has the Applicant provided all required documentation? Yes No

Rainfall harvesting technique detains runoff from: 100-year storm + 15% additional volume = 20% Credit

100-year storm = 15% Credit

50-year storm = 10% Credit

Credit % = %

Credit Application Instructions

To receive this credit the applicant must provide the following:

- a) A completed General Credit Application Form
- b) A completed Frequent Storm Quantity Credit Application Form
- c) Site Plan which includes, at a minimum, locations, dimensions and characteristics of all proposed and existing elevations, drainage patterns, stormwater facilities and impervious areas.
- d) Detailed engineering calculations showing compliance with the requirements the credit applied for. An Illinois Professional Engineer must certify these calculations. The sum-total of pre-developed and post-developed runoff rates and volumes from all watersheds *within the property* must be calculated and compared, regardless of the number of natural or constructed watersheds in the property. Control of runoff in only one of the property's watersheds, ignoring all others, will not receive credit. Control of runoff in only one watershed, *which takes into account the runoff from all others*, could receive credit.
- e) As-built data certified by an Illinois Professional Engineer. The as-built data must verify the capacity of the detention facilities and outlet structures for which the credit has been applied.
- f) Details of outlet control features and emergency spillway
- g) Application fee: \$100.00
- h) Long-Term Maintenance Plan

Frequent Storm Quantity Credit Determination

(for City use only)

Is the rainfall harvesting technique approved by City? Yes No

Has the Applicant provided all required documentation? Yes No

If any of the answers above is "No" the credit is denied and a letter of determination that identifies the deficiencies is to be sent to the Applicant.

If the answers to all questions are "Yes" the Frequent Storm Quantity Credit is computed as:

Credit % = 10%

Credit Application Instructions

To receive this credit the applicant must provide the following information:

- a) A completed General Credit Application Form
- b) A completed NPDES Compliance Credit Application Form
- c) Copy of most current NPDES Industrial Stormwater Permit and required reporting information
- d) Past year's Visual Inspection Reports

NPDES Compliance Credit Determination

(for City use only)

Has the Applicant provided all required documentation? Yes No

Is the Applicant currently in compliance with her/his NPDES stormwater permit? Yes No

If any of the answers above is "No" the credit is denied and a letter of determination that identifies the deficiencies is to be sent to the Applicant.

If the answers to all questions are "Yes" the NPDES Compliance Credit is computed as:

Credit % = 5 %

Credit Application Instructions

To receive this credit the applicant must provide the following information:

- a) A completed General Credit Application Form
- b) A completed BMP Credit Application Form
- c) Plat of survey certified by an Illinois-Registered Land Surveyor, or site construction plan certified by an Illinois Professional Engineer, indicating location and dimensions of the BMPs on the property, watershed breaks across the property, layout of impervious surface areas on the property, layout of the drainage system on the property (including location and elevations of natural and man-made features), and sufficient topographic data or elevations to verify general drainage patterns across the property
- d) Supporting plans, calculations and reference information must be provided to demonstrate that the BMP can achieve TSS removal of at least 75 percent
- e) Application fee: \$100.00
- f) Long-Term Maintenance Plan

BMP Credit Determination

(for City use only)

Does the design remove 75% of total suspended solids? Yes No

Has the Applicant provided all required documentation? Yes No

Number of BMPs: _____

Credit % = # of BMPs x 5% = _____ % (Max 10%)

Credit Application Instructions

To receive this credit the applicant must provide the following information:

- a) A completed General Credit Application Form
- b) A completed Education Credit Application Form
- c) Proposal which includes, at a minimum, a description of the educational program, individual school or school district yearly enrollment, number of students reached in the school year, and proposed method of reporting compliance with submittal
- d) Application fee: \$100

Education Credit Information

What is the target audience of the stormwater management education curriculum (grade)? _____

How many students in the target audience will participate in the curriculum this school year? _____

How many hours of stormwater management instruction will be provided for each student? _____

Primary point of contact for this instruction / curriculum: _____

Primary point of contact phone number: _____

Primary point of contact email: _____

Education Credit Determination

(for City use only)

Has the curriculum been submitted to and approved by City? Yes No

Has the Applicant provided all required documentation? Yes No

If any of the answers above is "No" the credit is denied and a letter of determination that identifies the deficiencies is to be sent to the Applicant.

If the answers to all questions are "Yes" the Education Credit is computed as:

Credit % = _____ % (Max 25%)
